EXPERIENCE

Twincord Technologies, Full Stack Developer Intern

Interned at Twincord Technologies to build MindAid, a full-stack mental wellness platform using React and Firebase, featuring secure session booking, mood tracking, counsellor scheduling, and role-based dashboards for users, counsellors, and admins. Delivered a production-grade UI with end-to-end authentication and curated well-being resource management.

ACHIEVEMENTS & AWARDS

CTPG Proof of Concept 2025 – 1st Prize Winner,

Kongu Engineering College

CTPG Ideathon 2025 – 1st Prize Winner,

Kongu Engineering College

KEC Hackathon 2025 – 2nd Prize Winner,

Kongu Engineering College

OBJECTIVE

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

CERTIFICATIONS

Oracle GenAi | Oracle Java SE17 |

Cybersecurity certification from NPTEL

PROJECTS

Enhanced Bitcoin Price Direction Prediction Using Deep Learning and Cross-Cryptocurrency Market Signals, 4th IEEE International Conference on Artificial Intelligence and Machine Learning Applications (AIMLA 2026) K.S. Rangasamy College of Technology, Namakkal, Tamil Nadu

Ecommerce solution for organic products,

| Flutter · Dart · Firebase Auth

Developed a Flutter-based mobile e-commerce app for organic and eco-friendly products with Firebase Auth, smooth product catalog browsing, and a streamlined checkout experience. Focused on mobile-first UI/UX to make sustainable shopping accessible and convenient for everyday users.

Justfence – Fencing Business Management

Application, | React 18 · Firebase · Tailwind CSS

Developed a production-ready React + Firebase app with separate Customer and Admin portals, supporting end-to-end fencing project management — from quote requests and approvals to project tracking and invoice generation. Integrated role-based access control, real-time data sync, and interactive analytics with a responsive glassmorphism design.

Environment Waste Management System,

| Flutter /Firebase

Built "Ease," a mobile app that gamifies eco-friendly habit adoption through daily challenges, carbon tracking, and personalized sustainability tips. Addressed the gap in centralized environmental guidance by combining action tracking and reward motivation into a single, mobile-first platform.
